

VT800

VOLTAGE TESTER

A Voltage tester is by far one of the most important instruments of an electrician or installer. In the development of the VT800, all-important arguments of end users and all-important values have contributed to the realisation of the instrument. Therefore the VT800 is an instrument with multiple functions for every electrician, installer or industrial end user.

Key Features

- Fully automatic on/off
- Integrated LED display
- Interchangeable probe tips (2mm and 4mm)
- HSE GS38 probe tips
- Durable IP65 rated housing
- Visual and audible phase and continuity indication
- Indicates up to 690V AC/DC
- Phase rotation indication
- Integrated torch for illumination of probe tips in poor lighting conditions

VT800 Users

- Electrical Contractors
- Service Engineers
- Electricians

VT800 SPECIFICATIONS

Voltage range: 6V to 690V AC/DC

LED resolution: 6, 12, 24, 36, 50, 120, 240, 400 690V

Response time: <0.1 s LED

Single Pole Phase Test: 100V to 690VAC

Phase rotation: 2 pole

Continuity: < 200kohm

Frequency range: 45Hz to 65 Hz

Power supply: 2x 1,5V LR03 battery

IP-Protection: IP 64

Over voltage category: CATIII 1000V / CATIV 600V

Standard: IEC 61010-1, IEC 61010-031, IEC 61243-3, EN 61557-7, HSE GS38

Probe Tips: 2 mm. & 4 mm.

Drop proof: 1 metre

Test leads: 1.2 metre

Dimensions: 240 x 56 x 24 mm.

Weight: 230 gram (incl. batteries)

Part number: 332A910

Package includes:

■ Batteries

Seaward test and measurement companies include:
